Coolgardie Post Office Complex **HERITAGE CONSERVATION AND MAINTENANCE FOR THE EXTERIOR OF THE BUILDING**

Council are pleased to advise the community that the conservation work on the exterior of the Coolgardie Post Office Complex has commenced.

The State Heritage listed building, situated on Bayley Street (Coolgardie) is owned by Council. Built from local stone, the building has deteriorated in parts due to age, soil salt content and water drainage issues.

The current conservation works being carried out will ensure that the building is safely conserved for the community to continue to enjoy.

Council accepted a tender which includes the following scope of works; water management, stonework repairs, a preventative painting programme, partial re-roofing and associated repairs, stormwater and subterranean drainage and joinery repairs.

The conservation work commenced on May 9 2016 and is expected to be completed by September 2016.

Funding for the project was secured through Country Local Government Funds, and through a loan.

The building, which houses the Post Office and the Coolgardie Markets, is part of Coolgardie's identity.

Subject to funding, the Shire will continue to work towards full restoration which will enable all areas to be available for use.

Kambalda Soapbox Derby Committee

2016

Expressions of interest are being invited from interested parties for the formation of an official Soapbox Derby 2016 Committee.

The direction of the committee would be to:

- Explore ways to get Soapbox Derby competitions up and running in the Kambalda community.
- Car design, safety and construction.
- Competition format, scrutineers etc
- Road closure requirements.
- Event flow.
- Event activities, food, funding, licenses and insurance.

Please indicate your expression of interest to Jasmine

Shire of Coalgardie

From the desk of the CEO

Greetings to all

We have had a few interesting weeks completing our works program, evidenced most strongly by our reseal works. Reseals require that loose stone be left on the surface for a few weeks to help with the bedding in process. The loose stone is then swept off to reveal the final surface.

We have received a few complaints about the loose stone, but when we explain the process, the complainants have been leaving the office happier once they understand what we are doing. We are very sorry about the inconvenience, but it is an important step in this process. Roads need to be resealed about every 15 to 20 years. If we don't do this, the surface of the road goes brittle, water gets into the base, and the road will fail. Failed roads cost a heap to fix, so our aim is to reseal as much as we can.

The Kambalda Community Recreation Facility is the recipient of a grant funded solar power system, which is targeted for commission in early June. The project is about 80% complete at the time of writing this report. This is a very exciting project, and I look forward to identifying the real savings this project will give us over the next 12 months in relation to power costs. As solar power hardware becomes cheaper, the return period on spend continues to diminish. Continually increasing power supply costs also add to longer term efficiencies in alternative power supplies. We will gather data from this project and others in the region, to see if we can apply solar power to any other civil projects. It is important to remember that some projects are not suitable to these systems as peak demand may exceed capacity of the system, or battery backup may not extend to full demand period. Increasing the capacity of the system may exceed the economic benefit of the project.

The Shire has also been the recipient of Lotterywest funding for park equipment in Donkin Park and Sarah Jane Park. The project is currently progressing through the tender process, and I look forward to seeing what we will be offered for installation to benefit the children in our town.

Our Planning Scheme draft No 5 is currently now sitting with the West Australian Planning Commission (WAPC). This document maps the Council's and communities vision for the future development of our Shire and towns, identifying development potential, provision of industrial land, access to recreational pursuits and diversity of housing. We will continue to lobby for our Shire through this process.

Warmest regards to all,

Paul Webb
Chief Executive officer

Shire of Coolgardie

Collecting firewood for domestic use

Chilly nights have moved in to the Shire of Coolgardie but people looking to stoke the fireplace have been asked to do so responsibly.

- Collection should be for private use only and is restricted to a ute or trailer load at a time.
- Firewood cannot be sold, exchanged or traded for commercial gain.
- It is a legal requirement to gain permission to enter and collect firewood from other land being used by pastoral leaseholders, mining companies and Aboriginal communities.
- Gathering is not allowed 2 kilometres of station homesteads or on active mining areas.
- A number of restrictions apply to gathering firewood and one restriction is people cannot collect or cut wood within 7.5 kilometres to the towns of Kambalda and Coolgardie, in order to maintain the health of vegetation protecting the towns from dust storms.

Shire of Coalgardie Rates Objectives and Reasons 2016 2017

The rate in the dollar (RID) is calculated to provide the shortfall in income required to enable Council to provide necessary works and services to maintain assets and provide for the future asset needs.

In the Shire of Coalgardie, the rate burden between the categories of Gross Rental Value and Unimproved has been considered fair and equitable by stakeholders at public consultation held each year. This remains as town sites rated using Gross Rental Value provide 31% of the rates (by value) and those being rated on Unimproved Value 69%.

Gross Rental Values (GRV)

The four categories of GRV properties, dependent on land use and zoning are

- Residential
- Commercial
- Industrial
- Vacant Land

It is proposed that all properties using GRV as the basis for rating will attract the same RID and minimum rates. The reasoning being that the same services are provided for all.

The minimum rate is set to ensure that each rateable assessment makes a fair contribution to the services provided. Where the property is vacant, this contribution ensures that the services provided in the future will meet the needs of the improvements placed on the property.

Unimproved Values (UV)

The differential between mining and rural properties has an historical base, due to anomalies in valuation methods some years past. Changes to processes and conditions now placed on rural and special leases have reduced the need for this variation, and this was addressed in 2015/2016 by a reduction of the differential. Council recognises the importance of diversity of industry to the community, and provides a generous concession for ratepayers who can demonstrate that they use their rural land for purposes other than mining. This is reflected in the Rate Strategy of the Council.

The lower minimum for Mining UV recognises that these leases are, for the most part small, and each ratepayer may have multiple leases, each paying the minimum rate.

A concession offered to Bona Fide Prospectors (who hold proof from the Department of Transport) recognises the importance to the community of the historical link of independent prospectors who live within the shire. The level of concession is set at each Annual Budget.

OUR THOUGHTS...OUR CHOICES...OUR BODIES...

Are you seeking to improve your health and wellbeing to live your life fully?
Do you wish you had more energy and motivation?
Educate yourself with nutrition and knowledge with the possible prevention of diseases?

“Prevention is Better than Cure” Never too Late to Start

Do you need some pampering with a relaxing Massage, Reiki, Bowen or Jin Shin Jyutsu?

Hello my name is Patricia. I have developed an extensive knowledge with more than 29 years experience in the Natural Health Field. I believe in the body's ability to heal itself with a healthy diet, balanced lifestyle and natural treatments that support the flow of energy within us.

Ultimately, all healing is self-healing. My passion is to share all I have learnt over the years to empower you with self help tools for your ongoing health and wellbeing.

Sometimes, more than one modality is included in the 60-minute appointment - depending on needs.

Specialising in:

- Therapeutical massage
- Bowen technique
- Biopton light therapy
- Healing with natural remedies and nutrition
- Self development groups and individual
- Jin Shin Jyutsu
- Reiki

Phone or text: 0451 596 868

Prospecting popularity prompts safety message to carry personal locator beacons

The Department of Mines and Petroleum (DMP) has launched its annual Seven Golden Rules for Prospecting campaign to highlight safe and sustainable practices.

Mineral Titles Executive Director Dr Ivor Roberts said the department had issued more than 17,000 Miner's Rights for prospecting in Western Australia in the past five years.

"A Miner's Right is the most common prospecting permit used by tourists visiting Western Australia and allows holders to prospect on Crown Land with hand-held tools, such as a metal detector, and to take and keep samples or specimens up to 20 kilograms.

"That is an incredible number and is indicative of gold prospecting's continued popularity in this State," Dr Roberts said.

Dr Roberts said safety should always be a prospector's number one priority.

"Western Australia's outback can be a harsh, remote environment, which is why personal safety is such an important consideration when prospecting in this State," he said.

This is why we encourage everyone to carry Personal Locator Beacons (PLBs) when prospecting in remote areas."

The device, which can be purchased from most outdoor stores, is ideal for use in remote areas as it does not rely on telecommunication networks to submit a signal.

PLBs are the best way of avoiding the sometimes tragic results of getting lost in the Goldfields and the outback.

The Seven Golden Rules campaign will see DMP offices, tourist bureaus, libraries and caravan parks targeted with posters, brochures and booklets.

The Seven Golden Rules for prospecting are:

1. Put safety first - Your safety is your responsibility
2. Obtain a Miner's Right permit - when prospecting on Crown land
3. Obtain a 40E permit - prior to prospecting on an exploration tenement
4. Get written permission - if you want to prospect on someone else's mining tenement
5. Comply with all legal requirements - when prospecting on a pastoral lease
6. Show respect when on Crown land - because it is used by other people or set aside for many purposes
7. Fill any holes - repair any ground disturbances that you make

For more information about prospecting, please visit your nearest Mining Registrar's office to obtain a copy of Prospecting in Western Australia or download it from www.dmp.wa.gov.au/prospectingwa

OPEN DAYS

GET HELP WITH IDENTIFICATION, FINES & DRIVERS LICENCE BUSINESS

The Aboriginal Justice Program is holding an Open Day in Coolgardie Community where you can seek assistance with identification, drivers licence, fines, Centrelink and other business under the one roof.

WHERE: COOLGARDIE COMMUNITY RECREATION CENTRE

WHEN: Thursday, 25 August 2016

TIME: 8.30am. TO 4.30pm

(Door closes at 3.00pm)

WHO WILL BE AT THE OPEN DAY

- **Registry of Births, Deaths and Marriages** – Need identification? Want to check if you and your children’s births are registered? Register births! Get your Birth Certificate!
*Birth Registrations Free *Birth, Death or Marriage Certificates \$47.00 *Change of Name \$165.00
- **Sheriff’s Office** - For queries on fines and time-to-pay arrangements.
- **Department of Transport** – Apply for learner’s permits and WA Photo (ID) Card, hand in number plates, find out if you have lost your licence or are under suspension and other information about licensing services.
*Learner’s Permit (includes one practical driving test) \$74.10 *Log Book \$18.20 *WA Photo Card \$41.70
- **Centrelink** – Income support issues, family benefits, pensions and make arrangements to pay your fine off, Centrepay and apply for Tax File Numbers and Medicare Cards.

If you want to apply for WA Photo (ID) Card or do licensing business it is IMPORTANT to bring along as much ID as you can:

- | | |
|--|--|
| <ul style="list-style-type: none"> • Birth Certificate • EFTPOS/Credit Card • Medicare Card • Centrelink Card • Proof of Age Card/WA Photo Card • WA Construction Card | <ul style="list-style-type: none"> • Working with Children Card • Bank statement, any official letter or bill from a Government agency or current employer with your residential address and is no more than three months old. |
|--|--|

***and payment (\$\$\$) to pay for Birth Certificates, WA Photo Cards, Learner Permits and Driver Licences**

***BSB Number and Bank Account Number for payment arrangements for fines**

Sky Muster™ migration and connection process

Following the successful launch of **nbn's Sky Muster™** satellite last October, eligible Australians are set to be able to order services from the end of April 2016. The new service will be available to homes and businesses in rural and remote Australia (including external territories) that fall outside the fixed line and fixed wireless areas.

Sky Muster™ is designed to deliver wholesale speeds of up to 25/5Mbps¹ and data allowances of up to 150GB per month. Internet service providers will provide retail plans at different price points and data allowances, so you can choose a plan that best suits your needs.

How do I place an order?

To find out if you are eligible for the **Sky Muster™** service, please contact an internet service provider or check your address at nbn.com.au. For a list of internet service providers offering **Sky Muster™** services, please check our website for updates.

How much will the Sky Muster™ service cost?

The plans and associated pricing for homes and businesses will be set by internet service providers (**nbn** is a wholesale-only supplier). For a list of internet service providers offering **Sky Muster™** services, please check our website for updates.

How long will it take for me to get connected?

Customers should contact their internet service provider to find out how long their installation and connection process will take once their order is placed with **nbn**. **nbn** plans to do batched deliveries or hire local installers where there is sufficient demand, however if **nbn** gets more orders than the available installation capacity in that month, there could be longer wait times. **nbn** has specified different service level targets depending on the location. **nbn** will aim to complete a standard installation within 20 business days of an order for the service being placed by the internet service provider for most categories. In isolated areas on the mainland and in Tasmania, it may take up to 35 days. For limited access areas (those areas that can't be accessed by road and would require some element of air or water transportation), **nbn** has an aspirational target of 90 days. Please discuss with your internet service provider if you have any questions about installation time.

What is the ordering and installation process?

(1) When an internet service provider receives an order, they should give a delivery timeframe (as per the above activation targets) to the customer.

(2) After receiving a confirmed valid order from the internet service provider, **nbn** will then directly contact the customer within two business days to set an appointment date.²

(3) The internet service provider will be sent a notification when the appointment has been agreed between **nbn** and the customer.

(4) **nbn** will call the customer approximately 24 hours prior to the appointment to confirm.

(5) If the installer is unable to contact the customer, they will still attend the premises and if the customer is not present, a missed appointment charge may apply.³

(6) The internet service provider receives a notification when the installer is on site.

(7) Once on site, the installer will recommend, and seek the customer's agreement to, a location for the equipment that has an unobstructed view to the satellite.

(8) After the customer has agreed to a location for the equipment to be installed, the installation occurs, the service is tested by the installers, and the installation is complete.

What equipment will be installed?

A qualified installer will install a dish typically on the customer's roof or wall. The dish will generally be either 84cm or 120cm in diameter depending on your location. The receiver and transmitter are mounted on the dish and two cables will be used to connect the dish to the satellite modem located inside the home. A standard installation of the equipment is currently free except in limited access areas⁴. However, customers should ask their preferred provider if there are any other fees.

For more information about **nbn's new Sky Muster™** service, visit nbn.com.au or call 1800 687 626.

Do I need to be present for the installation?

The customer or an authorised representative over the age of 18, needs to be present throughout the installation. A standard installation should typically take 2-4 hours; longer for a non-standard installation.

Will nbn carry out the entire installation, including wiring?

nbn is responsible for the installation and maintenance of satellite dishes and associated nbn equipment, including wiring from the dish to the network termination device (NTD). Please contact your preferred internet service provider in relation to any modem/wireless router the internet service provider may provide to the premises to which you can connect your equipment such as a PC or laptop.

I am currently an ISS customer. How do I migrate to the Sky Muster™ service?

ISS customers should contact an internet service provider to place an order for Sky Muster™ services. The appointments process covers ISS customer migrations as well as new installations. The plan is to migrate all ISS customers to Sky Muster™ over the next 10 to 12 months. Existing ISS customers switching over to the new Sky Muster™ service will need to have new equipment installed at their premises. nbn will de-install and remove ISS equipment.

How do I cancel or change the appointment date?

Customers should talk to their internet service provider who will be able to book changes to appointment times. Charges may apply for cancellations less than 1 business days' or 48 hours' notice depending on the location of the premises.⁵

Can I be sure that I will have a working service before the installer leaves?

If a customer has an existing service, it won't be switched off until the Sky Muster™ service is operating. The exception to this is where the Sky Muster™ equipment is to be installed in the same location as the existing equipment. However, the installer will seek the customer's consent before doing this. The installer will do basic tests to ensure the service is working before leaving. If the installation can't be completed, nbn will complete the installation remotely or through another visit to the premises, as required.

Will you be switching on some parts of the country first?

nbn plans to have the entire network switched on at the commercial launch date. Customers will need to contact an internet service provider to order their Sky Muster™ service.

We will be activating both new users and also those who we are migrating over from the interim satellite service solution simultaneously. Given the size of Australia, the activation at customer premises will take some time.

What if my children need Sky Muster™ for education purposes? Will we be prioritised?

nbn is working with state and territory departments of education on ways their distance education programs can be delivered over Sky Muster™. As some states have existing arrangements in place for their distance education services they may not initially use Sky Muster™. In those states where the department of education doesn't already provide a satellite service, nbn will take pre-orders from eligible distance education students. The proposed distance education product provides access to a second service with a 50 GB a month allowance per eligible student separate to the home service.

-
1. We're designing the nbn™ network to provide these speeds to our wholesale customers, telephone and internet service providers. End user experience, including the speeds actually achieved over the nbn™ network, depends on the technology over which services are delivered to your premises and some factors outside our control like equipment quality, software, broadband plans and how the end user's service provider designs its network.
 2. If nbn is not able to contact the customer to make an appointment following an order, a notification is sent to the internet service provider. After a total of 5 business days, the order will be in pending mode if there is no response. If the order is pending for more than 5 days, it may be cancelled by nbn. The internet service provider can then reschedule installation on behalf of the customer and nbn will attempt to contact the customer again to reschedule.
 3. If the customer reschedules or cancels the appointment close to the confirmed installation time, fees may apply (within 1 business day for urban, rural and remote areas, or within 48 hours for isolated and limited access areas).
 4. Limited access areas are areas that can't be accessed by road and would require some element of air or water transportation.
 5. If the customer reschedules or cancels the appointment close to the confirmed installation time, fees may apply (within 1 business day for urban, rural and remote areas, or within 48 hours for isolated and limited access areas).
-

For more information about nbn's new Sky Muster™ service, visit nbn.com.au or call 1800 687 626.

YOUR MOMENT TO MAKE A DIFFERENCE

Census recruiting in your community!

Up to 2,300 Census Field Officers needed across Western Australia

Make a difference in your community and join Australia's largest logistical peacetime operation—the 2016 Census of Population and Housing.

This year's Census is on August 9, and the Australian Bureau of Statistics (ABS) is looking for dedicated, enthusiastic self-starters to fill more than 2,300 Field Officer positions across Western Australia. If you're tech-savvy, know your community well and are eager to make a difference, the ABS wants to hear from you.

Working on the Census is a great way to contribute to your community. The data you help collect provides an important statistical snapshot of Australia. It supports planning, policy and funding decisions for a range of local services and infrastructure—from housing and transport to health and education.

A few things have changed since the last Census. In 2016, most households will receive a letter giving them a unique login number and instructions on how to complete the Census online. Approximately 65 per cent of households are expected to complete the Census online however paper forms will still be available for households who need them.

Field Officers play a critical role by visiting households, encouraging online participation and ensuring everyone makes the count. And as a Field Officer, you'll earn around \$21 per hour, receive motor vehicle allowances and enjoy flexible working hours. You will also be responsible for daily administrative tasks and the security of Census materials.

You'll need to be a good communicator, reasonably fit, licensed to drive and willing to travel and work independently. Field Officers will also need to have access to home computer and internet.

The positions are part-time and most of the work will be conducted during August and September. People from diverse backgrounds are encouraged to apply.

For more information or to apply, go to www.abs.gov.au/careers. You can also follow the Census on [Facebook](#) and [Twitter](#).

Applications open on Monday, 2 May.

OUR MOMENT TO MAKE A DIFFERENCE

Camper Mate™

App helps visitors do the right thing

Media Release: 11 May 2016

Road tripping around a foreign place can provide challenges in the way of locating essential facilities and doing the right thing by locals. A new app, **CamperMate**, which takes point of interest mapping a few steps further than Google Maps, is now available in Australia.

CamperMate is designed to help travellers navigate this country and camp responsibly. It is a free, multilingual app for iPhone and Android that helps tourists find public toilets, recycling stations, rubbish bins and other facilities as they travel around, often through remote areas.

Originally developed in New Zealand, CamperMate has had over 200,000 downloads in its five-year existence, making it the country's most popular travel app. The app also won the Innovative Mobile Technology Award at the 2015 NZ Hi Tech Awards.

While its main purpose for travellers is to share locations of interest, local authorities have embraced the app as a way of encouraging responsible camping by providing travellers with the right information at the right time.

“Over 15,000 road travellers are using CamperMate in New Zealand each day – that’s all spread from word of mouth,” says CamperMate founder, Adam Hutchinson. “It’s a platform for local authorities to communicate to domestic and international people travelling through areas that are otherwise hard to reach, providing information on where is suitable to camp, and any local rules visitors should be aware of”.

Whilst CamperMate uses the GPS function of smartphones to map points of interest it has also been used as a valuable communication tool for local authorities and the State Emergency Service (SES) in times of emergency. It has the ability to send out weather alerts via in app messages to warn travellers of natural disasters in the area, such as bushfires or flooding.

The app has potential to increase traffic at local campgrounds too. In New Zealand, commercial holiday park options collectively have been viewed over 3.7 million times within the past six months.

CamperMate are so confident in the accuracy of information they provide, that they offer a money-back guarantee if campers are fined as a result of guidance received from the app.

Matt Harvey, General Manager of Australian Operations at Britz and Maui Campervans sees huge potential in the app for tourists. “For customers who are driving themselves, the app relieves stress by providing all the information they need to make good decisions. We find that anything to help make their stay easy and enjoyable is a way to ensure they come back again or recommend Australia as a destination to their friends.”

He also believes CamperMate will provide peace of mind for local authorities and communities, “Both (local authorities and communities) can have confidence that travellers are aware of the rules, therefore minimising environmental impact and misunderstanding.”

Top 9 Reasons why networking works!

Are you looking for new business?

Do you want more businesses to know what you do?

Would you like other businesses to refer clients to you?

1. Referrals/Increased business

The great news is that the referrals that you get through networking are normally high quality and most of the time are even pre-qualified for you. You can then follow up on these referrals/leads and turn them into clients. So you are getting much higher quality leads from networking than other forms of marketing.

2. Opportunities

With a motivated group of business owners comes an abundance of opportunities! Opportunities like joint ventures, client leads, partnerships, speaking and writing opportunities, business or asset sales... the list goes on, and the opportunities within networking are really endless.

3. Connections

"It's not WHAT you know, but WHO you know". This is so true in business. If you want a really successful business, then you need to have a great source of relevant connections in your network that you can call on when you need them.

4. Advice

Having like-minded business owners to talk to also gives you the opportunity to get advice from them on all sorts of things related to your business. Many business owners have been in your shoes, learn from their mistakes.

5. Raising your profile

Being visible and getting noticed is a big benefit of networking. Make sure you regularly attend business and social events that will help to get your face known. You can then help to build your reputation as a knowledgeable, reliable and supportive person.

6. Positive Influence

The people that you hang around with and talk to do influence who you are and what you do, so it is important to be surrounding yourself with positive people that help you to grow and thrive as a business owner.

7. Increased confidence

By regularly networking, and pushing yourself to talk to people you don't know, you will get increased confidence the more you do this. This is really important as a business owner, because your business growth is very dependant on talking to people and making connections.

8. Satisfaction from helping others

Networking is full of business owners that have problems or issues within their business that need solving, and there is great satisfaction from helping someone to solve a problem they have and get a fantastic result from it.

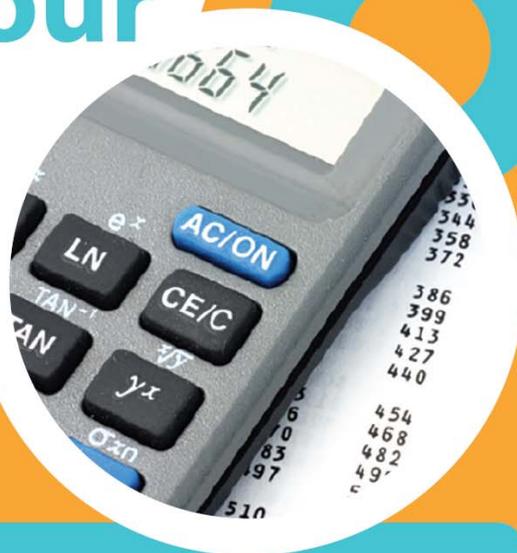

9. Friendship

Many friendships form as a result of networking because (mostly) you are all like-minded business owners that want to grow your businesses, and you meet and help each other regularly, so naturally strong friendships tend to form.

June Squash News

We have just passed the half way point in the first season of the 2016 pennants squash. Many teams have shown off their skills and there are plenty of new friendly faces. As good as competition has been, some teams will need to fight to catch up to the front runners.

At the end of the 9th round the individual scores are as follows:

In the #1's, Sean O'Hare (37 points) leads the pack just ahead by 4 points on Glenn Smith (33 points).

In the #2's, Caleb Brown (48 points) shows off his skills with his 13 point lead on Reece Piggott (35 points).

On to the #3's Montana Leeson (33 points) trails behind by a small amount of 11 points Martika Marzolo (44 points)

Kayla Piggott (49 points) rounds out the #4's with a small 6 point lead on Calinda Leeson (43 points). As we roll into the 10th round, we are heading for some good exciting matches.

Team Ladder

RANK	TEAM	POINTS
1	DAF	39
2	BEDFORD	34
3	EUROSTAR	31
4	CROSSLEYS	25
5	FREIGHTLINERS	16
6	ATKINSONS	15

20-20 Squash Tournament

On Sunday 1st of May, the Kambalda Squash Club hosted the 20-20 squash tournament. The 20-20 tournament was a great turn-out for both Kalgoorlie and Kambalda residents. The day was full of fun, fitness and excitement as well as a friendly environment for everyone to enjoy. Everyone had a great time playing squash from beginners to pro's followed by a delicious sausage sizzle. The 20-20 was a day to enjoy and we hope to see many more next time.

Upcoming Tournaments

Golden Open in Kalgoorlie 4th – 6th June at the YMCA.

SQUASH.....Want to do some serious EXERCISE?

Come on down and have a hit of SQUASH!

Coolgardie Volunteer Fire and Rescue

From the desk of the Coolgardie Volunteer Fire and Rescue Captain
Paul Munro

By now all of you will be lighting your fires and using your heaters to keep warm. Please bear in mind the safe use of this equipment. Never leave fires unattended or any flammable objects left near them. Please also ensure that young children are not at risk of injury.

We will be holding our Annual General Meeting on Saturday 25 June 2016 at 6.00pm to elect our 2016/2017 Office Bearers and Coaches.

If you are interested in joining the Coolgardie Fire and Rescue Service, come down and see us on our training nights which is every Tuesday from 7.00pm.

Please contact the Captain Paul Munro for further details on 0438 599 172

Coolgardie Community Men's Shed

The Coolgardie Men's Shed has been motoring on over the last few weeks, with the arctic weather conditions obviously sending many members into hibernation, and locked up at home in their thermals. However, a few members who must be part Eskimo, or Polar Bear, have braved the chill air, and continued to pump out work at the Shed.

Gorry and Wayne have continued to work on the smaller petrol Lister, restoring the bronze water tank with patches, new connection points and a nice coat of green paint.

Whilst getting the engines operations is a good start, there is a continuance of work tidying up the engines both aesthetically and in function. This has taken up a fair bit of the guys time, but resulted in some outstanding improvements to the engines.

The large Crossley engine has come to a bit of a stand still. This is really a result of a 'wait a while' moment. Rushing into any action on this really important engine could result in damage, so in some instances it is better to wait and think for a bit before doing anything irreversibly rash.

In these items, we tend to waffle on about our engines, which are an incredibly important part of our regional heritage, and hold a lot of interest to the participating members. However, Men's Shed is not just about engines!! If you have an interest, come down and discuss it. The foundations of the current group were built on the Coolgardie Restoration Club, and that is still our main interest. If you like old stuff (not the members) come down, see what picks your interest, and see if we can't move something along. We have the ability to provide for some basic timber work, or even restoration of the old bakers cart if that's your thing. Most of all, you can share your passion with others in the community, and hopefully see the final product on display for everyone.

The shed is generally open on a Sunday from 10.00am for a few hours, but if you see the door open, come in and say hello. For more Information please contact Wayne 0438 267 180

ANZAC DAY SERVICES

On request from the Kambalda Returned and Services League, we again were able to provide volunteers to act as flag orderlies and participate in the march for the ANZAC services this year. The community support for the service continues to be strong, with a large turnout for both the dawn and morning services.

Thanks to Rosie, Nathan, Mandy and Ruben for participating as orderlies on the day, and to Frank for laying the wreath on the Sub Centre's behalf.

BUNNINGS WAREHOUSE BBQ

We had a very successful day on May 1 at Bunnings, where we raised much needed funds to support the operating costs of our Sub Centre facilities, ambulances, and maintenance of our life saving equipment.

Congratulations to the winner of our lotto board!

by John Scott*

Trash Test Dummies show held on Monday 23rd May. “What a performance” at the Community Rec Centre.

The trio of Jamie Bretman, Isaac Salter and Simon Wright had the 200+ crowd in stitches and absolute amazement at their antics, clowning, juggling, acrobatics, some feats that were indescribable, all delivered to an audience that they thought was “very good”. That made it easier to let it all go.

Their whole crew including tour manager, Janie Davidson and lighting and sound manager Ben Turner, were a delight to work with and they even helped us out with seating arrangements.

They also managed to fit in a fun workshop with circus skills, tricks in a playful atmosphere that was really enjoyed by year 6 students at the Kambalda West District High School. The dummies noticed some existing skills in the students.

Life Membership

The club was proud to induct Karen Vodden and Wanda Beattie into our Life Membership group at our recent presentation.

Karen has been a member of this club since 2006, she has been involved in various roles throughout her time here, always dedicated and committed to her children's swimming endeavours and her committee roles. Karen's roles have included: Timekeeper, Check Starter, Marshall which have lead to her completing and passing her Starters role, this she has been doing for the last 4 years at all club Time trials and club meets, also assisting at Country Champs and Country Pennants meets as a Technical Official.

Karen has been involved in the committee and executive committee with her role as Secretary for a number of years and this past season as Publicity Officer.

Wanda joined the club back in 2007 with her children. Throughout her time she has been involved in the committee as a member and the executive committee as Vice President.

Wanda began her Technical Official role as a timekeeper, check starter, Marshall, starter then followed on with completing the Referee role, of which takes up to 5 years to progress to . She has assisted with time trials, club meets, Country Champs and Country Pennants over the years, also with Kalgoorlie Club nights when they needed a Referee. Wanda has been a committee and executive member over the years with the last two as Vice President.

Our club has been very privileged and appreciative of both ladies, the number of volunteer hours involved is huge and they always seem to enjoy the roles they take on .

We thank them with this honour of being a Life Member of the Kambalda Amateur Swimming Club .

Right: Karen and Wanda receiving their Life Member badges and flowers at presentation.

Two swimmers from the Kambalda Amateur Swimming Club recently attended the finals of the 2016 SunSmart Splash and Dash event at Beatty Park in Perth.

Seven year old Lachlan Rumsey and nine year old Grace Nedelkovski came home with Personal Best (PB) times and several medals.

Lachlan swam a 25m Breaststroke with a new 8 second PB, in a time of 35:04, a 25m Backstroke with an impressive 20 second PB in a time of 32:64 and a 25m Freestyle with a 14 second PB, in a time of 26:38. Lachlan achieved first place in all three events bringing home 3 gold medals.

Grace swam a 50m Breaststroke in a time of 1:06.99,

coming third with a 7 second PB, 50m Backstroke , 56:40 coming in fourth place, 50m Freestyle with a time of 49:28 coming fourth place and 50m Butterfly with a time of 1:06.37 coming in second place and bringing home a silver medal.

Well done to you both and we are proud that you represented Kambalda in the city.

Heritage Grants Program Funding

The Minister for Heritage, the Hon Albert Jacob MLA, announced this year's Heritage Grants Program funding round open for applications. Applications will remain open until **4.00pm Friday 29 July 2016**. To view the Minister's media release, <https://www.mediastatements.wa.gov.au/Pages/Barnett/2016/05/Heritage-grants-now-open-for-private-owners.aspx>.

The Heritage Council's annual Heritage Grants Program offers assistance to **private owners** of any State Registered heritage places in your local government area to undertake urgent conservation works, or develop conservation management plans or strategies. This year, the total grants pool available is \$1.273 million, with projects able to apply for up to \$100,000 on a dollar-for-dollar basis. Further information is available at grants.stateheritage.wa.gov.au and owners can check their registration status by telephoning (08) 6552 4000 or regional free call 1800 524 000.

Please note that this year, application forms will not be available from our website. For further information, please contact State Heritage by emailing grants@stateheritage.wa.gov.au or telephone the grants team on (08) 6552 4117.

Heating

Warm yourself up with our range of heating options

Need a new heater installed? Call us now to work out your options.

Already have a heater installed? A simple service could get it working like new and prolong the life of unit.

- Wood and Gas heaters
- Installations and Servicing
- Flue cleaning

Have an evaporative airconditioner?

Getting us to perform a winter shutdown is a great way to save money, they help by:

- Prolonging the life of your unit
- Reducing heat loss from your home
- Reducing the chance of split pipes caused by freezing in winter

Hot Water Systems

- New installations
- All servicing
- Anode changeovers
- Gas, Electric and Instantaneous

By getting a simple service or an anode changeover you can increase the life of your system and the quality of your hot water.

- Rotting anodes can destroy an otherwise perfectly good system, changing them before this happens is very important.

No job too big or small, Taps does it all

The Pastor's Pen with Bill Kirkland

The Bible records the account of a man called Nathanael who had a meeting with Jesus. At that meeting Nathanael realised that Jesus knew about him even though they had never met. Another woman who met Jesus was astonished that He knew all about her life. Nathanael's response to Jesus was to declare 'Rabbi, You are the Son of God! You are the King of Israel (John 1:49). The woman who met Jesus went back to her town and said to her people 'Come see a Man who told me all things I ever did. Could this be the Christ?' (John 4:29).

For many it's hard to believe we have someone watching over us who knows all and sees all. Personally I used to hope someone was watching over me when I did an occasional good deed but hoped they would be oblivious to me when I was acting in a selfish or sinful manner.

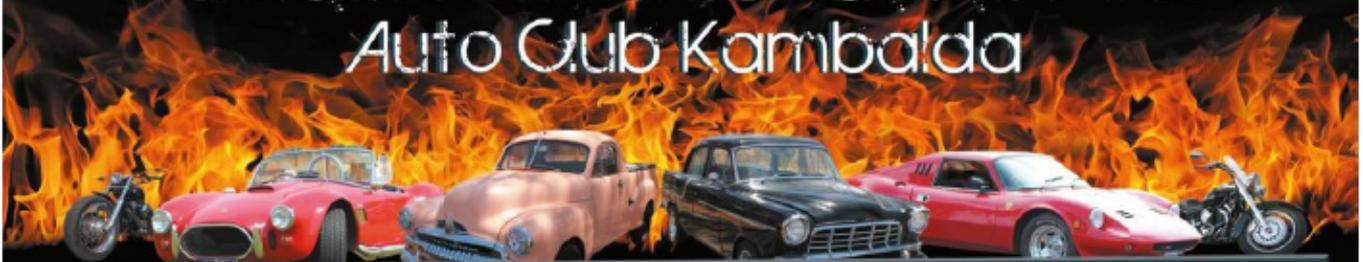

One of the best loved Scriptures is found in Romans 5:8 'But God commends His love toward us in that while we were yet sinners Christ died for us.' This reveals that God, knowing the condition of each and every person's heart, was still prepared to pay a very high price for our sins.

One of the names of God revealed in the Old Testament is "the God who sees". Impressing man is a relatively easy exercise. We learn how to behave in a socially acceptable way in the home, in the workplace, in the school or at church. To a degree the real you is on display when no one else is looking.

The living God is spoken about in the Scriptures as One sees all. He sees our dark secrets and acts. He sees our motives and hypocrisy when we pretend to be someone we know inwardly we are not. The "God who sees" saw how far each and every human had strayed from righteousness and purity. He sent His Son so that we could be forgiven and changed. Hope, peace, love, mercy and grace has been granted to those who have embraced His offer.

The absence of a God who sees means much wickedness is going to go unpunished and much good unrewarded. Is there Someone watching you?

Shire of Coolgardie Kambalda Community Resource Centre

The Kambalda Community Resource Centre during the month of May hosted a range of more successful workshops, activities and events.

On Tuesday 3 May, Independent Living Centre Western Australia visited Kambalda while on their WA tour. Independent Living Centre's experienced health professionals help people to choose and access equipment, technology and services for independence and wellbeing. Their services are for people with disability, older people, their carers, service providers, health professionals and educators. ILC WA popped in to chat with our lovely Senior ladies who meet every Tuesday at the Kambalda Community Recreation Facility from 9.00am – 3.00pm. A few handy devices along with a motorized scooter were on display and free to try out.

On Friday 13 May the Kambalda CRC in conjunction with Business Local hosted the Business Networking Brekky. It is an opportunity to get as many of the local businesses together in a relaxed and inviting setting for engagement and potential mentoring while enjoying the freshly cooked breakfast.

Every Monday from 11.00am – 1.30pm Drum Beat can be heard throughout the hallways in the Kambalda Community Recreation Facility. This workshop is strongly supported by committed and dedicated people. With more confidence growing within the attendees the rhythm is to be recognized. Well done to all of you who constantly turn up on Mondays to enjoy the beating of Drums.

On Thursday 26 May Kambalda Community Resource Centre hosted the annual Biggest Morning Tea. Australia's Biggest Morning Tea is an opportunity for friends, family or workmates to come together, share a cuppa and some delicious food, and help those affected by cancer. A total of \$426.35 was raised and all proceeds will go to the Cancer Council WA.

Winner of the raffle was Elizabeth Johnson.

A huge thank you to the Kambalda community for giving generously.

For more information on upcoming activities, or if you have suggestions for future projects please contact Val on 9080 2115 or email kambaldacrc@coolgardie.wa.gov.au

Shire of Coolgardie

Coolgardie Community Resource Centre

Local Business – Networking Event and Educational Workshop

On Thursday 9 June, the Coolgardie CRC will be hosting a Local Business Networking session that will follow onto a Marketing Strategies workshop. This evening will be run by Katie Macdonald from Business Local in Kalgoorlie. This is the first of many Business Development Workshops that will be run in Coolgardie. The cost of the evening will be \$10.00 Per Person which includes a workbook, nibbles and refreshments and it is open to all businesses and community groups that would like to attend. Katie has been running these workshops in Kambalda and there has been a lot of encouraging and positive feedback by those who attend. To book a place for this workshop, please call Leanne on 9025 0301.

Biggest Morning Tea

Coolgardie's Biggest Morning Tea was held on Thursday 26 May at 10.30am. What a morning ☺, there was laughter, swapping of stories, the eating of delicious food, a winter warm raffle and it was all done in support of a very good cause the "Cancer Council". We had a total of 52 attendees and contributors and we raised \$223.20 to donate to the Cancer Council. Thank you to Patsy from Morans IGA for supporting our raffle. Winner of the raffle was Susan Oliver.

We were also spoilt as Shane Munro attended on behalf of the St John's Ambulance Coolgardie Sub Branch and offered free blood pressure and blood sugar checks on the morning. Everyone participated and it was good to have these health checks in a relaxed environment.

Carer Support Luncheon

In conjunction with Centrecare Kalgoorlie, we held a Carer Support Luncheon on Wednesday 18 May 2016. It was nice to come down to the Rec Centre and enjoy a delicious hot lunch, while catching up with friends. Thank you Alison from Centrecare. ☺

If you would like further information on upcoming activities, please see the Community Resource Centre Calendar on page 41 or if you have suggestions for future projects Please contact: Leanne on 9025 0301 or email: coolcrc@coolgardie.wa.gov.au
