Briefly describe your racer and how you acquired your machine:	

Rocker cover rules for car and bike show 2023

1. This is a fun event.
2. Car shall be based on an actual rocker cover (valve cover) from a car engine. There shall be no limitation on engine make, model, cylinder configuration or displacement.
3. Car must retain at least 75% of the original rocker cover.
4. Car must NOT have any form of mechanical propulsion or steering. Gravity is your friend.
5. Car must weigh no more than 4.5KG
6. Car overall length shall be no more than 30 inch. (Note: the staging lane is only 30 inch long)
7. Cars shall be no wider than 15 inch as each lane is 18 inch wide.
8. The base of the car must be no greater than 2 inch off the ground. (note: that is how high the starting latch is)
9. Car must have 4 wheels, each no greater than 6 inch in diameter.
10. No part of the car is to be past the front of the rocker cover itself.
11. Cars will be in heats of 2 cars each. The first car to the finish line shall be declared the winner. If neither car makes it to the finish line, the car going furthest shall be declared the winner.
12. Winning cars advance to the next round until all are eliminated – except one champion!!
13. Whilst the judge's decision is final, all bribes will be gratefully accepted. Any racer who enters a protest will be automatically disqualified.
14. Downforce wings, spoilers, air dams, etc are all permitted. They probably won't do any good, but we will get a good chuckle out of them.
15. Racing stickers and car names are all encouraged.
16. Remember to have fun!
