## MONTHLY FINANCIAL REPORT FOR THE PERIOD ENDED 31 AUGUST 2019

## INFORMATION

### PREPARATION TIMING AND REVIEW

Date prepared: All known transactions up to 17 September 2019

Prepared by: Martin Whitely

Reviewed by: James Trail

### BASIS OF PREPARATION

#### REPORT PURPOSE

This report is prepared to meet the requirements of *Local Government (Financial Management) Regulations 1996*, Regulation 34. Note: The statements and accompanying notes are prepared based on all transactions recorded at the time of preparation and may vary due to transactions being processed for the reporting period after the date of preparation.

#### BASIS OF ACCOUNTING

This statement comprises a special purpose financial report which has been prepared in accordance with Australian Accounting Standards (as they apply to local governments and not-for-profit entities and to the extent they are not inconsistent with the *Local Government Act 1995* and accompanying regulations), Australian Accounting Interpretations, other authoritative pronouncements of the Australian Accounting Standards Board, the *Local Government Act 1995* and accompanying regulations. Accounting policies which have been adopted in the preparation of this financial report have been consistently applied unless stated otherwise.

Except for cash flow and rate setting information, the report has been prepared on the accrual basis and is based on historical costs, modified, where applicable, by the measurement at fair value of selected non-current assets, financial assets and liabilities.

#### THE LOCAL GOVERNMENT REPORTING ENTITY

All Funds through which the Council controls resources to carry on its functions have been included in this statement. In the process of reporting on the local government as a single unit, all transactions and balances between those funds (for example, loans and transfers between Funds) have been eliminated. All monies held in the Trust Fund are excluded from the statement, but a separate statement of those monies appears at Note 13.

### SIGNIFICANT ACCOUNTING POLICIES

#### GOODS AND SERVICES TAX

Revenues, expenses and assets are recognised net of the amount of GST, except where the amount of GST incurred is not recoverable from the Australian Taxation Office (ATO). Receivables and payables are stated inclusive of GST receivable or payable. The net amount of GST recoverable from, or payable to, the ATO is included with receivables or payables in the statement of financial position. Cash flows are presented on a gross basis. The GST components of cash flows arising from investing or financing activities which are recoverable from, or payable to, the ATO are presented as operating cash flows.

#### CRITICAL ACCOUNTING ESTIMATES

The preparation of a financial report in conformity with Australian Accounting Standards requires management to make judgements, estimates and assumptions that effect the application of policies and reported amounts of assets and liabilities, income and expenses. The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances; the results of which form the basis of making the judgements about carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates.

#### ROUNDING OFF FIGURES

All figures shown in this statement are rounded to the nearest dollar.

**KEY INFORMATION**

Cash and cash equivalents include cash on hand, cash at bank, deposits available on demand with banks and other short term highly liquid investments highly liquid investments with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value and bank overdrafts. Bank overdrafts are reported as short term borrowings in current liabilities in the statement of net current assets.

The local government classifies financial assets at amortised cost if both of the following criteria are met:

- the asset is held within a business model whose objective is to collect the contractual cashflows, and
- the contractual terms give rise to cash flows that are solely payments of principal and interest.

Financial assets at amortised cost held with registered financial institutions are listed in this note other financial assets at amortised cost are provided in Note 4 - Other assets.

KEY INFORMATION

Trade and other receivables include amounts due from ratepayers for unpaid rates and service charges and other amounts due from third parties for goods sold and services performed in the ordinary course of business. Receivables expected to be collected within 12 months of the end of the reporting period are classified as current assets. All other receivables are classified as non-current assets. Collectability of trade and other receivables is reviewed on an ongoing basis. Debts that are known to be uncollectible are written off when identified. An allowance for doubtful debts is raised when there is objective evidence that they will not be collectible.

KEY INFORMATION

Other financial assets at amortised cost

The Shire classifies financial assets at amortised cost if both of the following criteria are met:

- the asset is held within a business model whose objective is to collect the contractual cashflows, and
- the contractual terms give rise to cash flows that are solely payments of principal and interest.

Inventory

Inventories are measured at the lower of cost and net realisable value.  
Net realisable value is the estimated selling price in the ordinary course of business less the estimated costs of completion and the estimated costs necessary to make the sale.

Land held for resale

Land held for development and resale is valued at the lower of cost and net realisable value. Cost includes the cost of acquisition, development, borrowing costs and holding costs until completion of development.  
Borrowing costs and holding charges incurred after development is completed are expensed.

Gains and losses are recognised in profit or loss at the time of signing an unconditional contract of sale if significant risks and rewards, and effective control over the land, are passed onto the buyer at this point.

Land held for resale is classified as current except where it is held as non-current based on the Council’s intentions to release for sale.

CONTRACT ASSETS

A contract asset is the right to consideration in exchange for goods or services the entity has transferred to a customer when that right is conditioned on something other than the passage of time.

SIGNIFICANT ACCOUNTING POLICIES

All assets are initially recognised at cost. Cost is determined as the fair value of the assets given as consideration plus costs incidental to the acquisition. For assets acquired at no cost or for nominal consideration, cost is determined as fair value at the date of acquisition. The cost of non-current assets constructed by the local government includes the cost of all materials used in the construction, direct labour on the project and an appropriate proportion of variable and fixed overhead. Certain asset classes may be revalued on a regular basis such that the carrying values are not materially different from fair value. Assets carried at fair value are to be revalued with sufficient regularity to ensure the carrying amount does not differ materially from that determined using fair value at reporting date.

**KEY INFORMATION**

All loans and borrowings are initially recognised at the fair value of the consideration received less directly attributable transaction costs. After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortised cost using the effective interest method. Fees paid on the establishment of loan facilities that are yield related are included as part of the carrying amount of the loans and borrowings.

#### KEY INFORMATION

##### PROVISIONS

Provisions are recognised when the Shire has a present legal or constructive obligation, as a result of past events, for which it is probable that an outflow of economic benefits will result and that outflow can be reliably measured.

Provisions are measured using the best estimate of the amounts required to settle the obligation at the end of the reporting period.

##### EMPLOYEE BENEFITS

##### Short-term employee benefits

Provision is made for the Shire's obligations for short-term employee benefits. Short-term employee benefits are benefits (other than termination benefits) that are expected to be settled wholly before 12 months after the end of the annual reporting period in which the employees render the related service, including wages, salaries and sick leave. Short-term employee benefits are measured at the (undiscounted) amounts expected to be paid when the obligation is settled.

The Shire's obligations for short-term employee benefits such as wages, salaries and sick leave are recognised as a part of current trade and other payables in the calculation of net current assets.

##### Other long-term employee benefits

The Shire's obligations for employees' annual leave and long service leave entitlements are recognised as provisions in the statement of financial position.

Long-term employee benefits are measured at the present value of the expected future payments to be made to employees. Expected future payments incorporate anticipated future wage and salary levels, durations of service and employee departures and are discounted at rates determined by reference to market yields at the end of the reporting period on government bonds that have maturity dates that approximate the terms of the obligations. Any remeasurements for changes in assumptions of obligations for other long-term employee benefits are recognised in profit or loss in the periods in which the changes occur. The Shire's obligations for long-term employee benefits are presented as non-current provisions in its statement of financial position, except where the Shire does not have an unconditional right to defer settlement for at least 12 months after the end of the reporting period, in which case the obligations are presented as current provisions.

**13 Sep 2019**

**Instruction for disbursement of principal and interest:**

Principal to be: Credited to this account

Interest to be: Credited to this account

Interest frequency: At maturity

**Please note:**

- Interest is calculated based on the opening balance of your account. Interest is not compounded.
- If you request the early withdrawal or transfer of all or part of your funds in an ANZ Business Notice Term Deposit, ANZ does not have to disburse your funds for 31 calendar days. If the 31st day falls on a non-business day, your funds will be disbursed the next business day. If the maturity date falls due prior to the expiry of the 31 day notice period, your funds will be disbursed on the maturity date if this is a business day or the next business day if the maturity date is a non-business day. An administration fee and interest rate reduction may apply. Please refer to the ANZ Business Transaction Accounts Terms and Conditions.
- If you have told us to reinvest your ANZ Business Notice Term Deposit upon maturity, the interest rate applied upon reinvestment may be lower or higher than the interest rate on your maturing ANZ Business Notice Term Deposit. Please contact us upon maturity to obtain details of current interest rates and any special offers.
- You must advise ANZ prior to or upon maturity if you do not require reinvestment or if you wish to vary the investment amount or term. Just remember we need to hear from you within seven days starting on 13 Sep 2019 or we won't be able to make any changes.
- Government duties, taxes and charges (where applicable) will be deducted from interest payments.
- The information contained in this letter is accurate as of the date of issue of the letter.

For further information, please visit an ANZ branch, call us on 1800 801 485 or contact your Relationship Manager.

**Please keep this notice for taxation purposes.**

### JUDUMUL UNMARKED GRAVES CEMETERY PROJECT OUTLINE

This project was proposed by the members at a meeting held on 5 July 2019. Recognition and respect for past members of the Coolgardie Aboriginal community is felt to be an important step in raising the morale and profile of families.

The Shire of Coolgardie has commenced a project to identify and mark one hundred early graves. This project is unlikely to cross over and result in duplication, as any graves identified as being between one hundred and one hundred and fifty years old would immediately be flagged to check with the Shire.

Skills developed during this project will include research, liaison with family members, and documentation of stories. During the preparation for this project, we will have learned not only about family members who have been interred in the Coolgardie Cemetery, but also important information relating to their place in the community.

Aim:

To place name plaques onto one hundred unmarked graves in the Coolgardie Cemetery

Proposal:

- It is proposed to liaise with the Shire of Coolgardie, and the Coolgardie Aboriginal community to identify and research family members interred in unmarked graves in the Coolgardie Cemetery.
- The type and style of the plaque will vary according to the available funding for plaques
- The project is planned to take approximately twenty weeks
- The project will employ eight people part-time over the life of the project.

## Funding Sources

- National Indigenous Australians Agency
- Judumul Advisory Aboriginal Corporation

## Permissions and assistance required from the Shire of Coolgardie

- Permission to access cemetery plots to erect plaques or monuments (application will be provided to the Shire for each)
- Liaison with Shire to ensure that plots identified for plaques are not those identified under any other program currently underway
- Access to all records relating to the Coolgardie Cemetery (registers and associated documents)
- Waiver of fees associated with the application for permission to erect a plaque

Discussions with the Shire suggest that a payment for the deed of right of burial would need to be paid in addition to the fee for the installation of a plaque or headstone.

It is not proposed that Judumul gain control over the plots for the next 25 years. We will be seeking the approval of the grant holder to place the plaque. The Cemeteries Act 1986 indicates that upon expiration of a grant, the control of the gravesite reverts to the Board (in this case, the Shire of Coolgardie). Where there is an existing grant of right of burial Judumul will seek the permission of the grantee or follow the process as appropriate and governed by the Cemeteries Act 1986.
