

Profile (as it will appear in the election materials)

GREGORY, Keith

GREGORY, Keith is eligible to stand for election as a resident of the Shire of Coolgardie.

I am a resident of Coolgardie having bought a place here two years ago . I have two university degrees , one is a BA from Charles Darwin (2003) the other is in law (2014) at the same university . Having lived in remote areas I have a good grasp of the issues affecting the community , and with a long relationship with Indigenous people in the NT and elsewhere a decent grasp of the issues and cultural issues. My goal as a councilor will be to ensure that Coolgardie remains independent of KBC and a vote is held to determine our fate if we are pushed in that direction . I also will demand that all meetings to discuss our fate as a shire be open and accountable to all stakeholders. We must also have a permanent GP and a dedicated minibus service to Kalgoorlie for those without a vehicle and with doctors appointments and so forth .We must have a shire where rates are fair and equitable with no ratepayer eg small miners are used to prop up council over anyone else

Additional Information

We must put personalities aside as this election is vital for our shires future . we must be aware that if we want to stay as a shire there must be hard decisions made and I do not shy from that . To shy from that fact is to be dishonest and might show one unsuitable for office. We need a break from the past and as I am a relative newcomer to the shire I firmly believe I represent a fresh look at our directions and policies going forward which is needed especially in this election .
