

Profile (as it will appear in the election materials)

BALL Tony

BALL Tony is eligible to stand for election as a resident of the Shire of Coolgardie.

I'm Tony, a Goldfields-born candidate for Coolgardie Shire Council, dedicated to serving our nearly 4,000 residents across 30,400 square km. As Coolgardie RSL President, I unite veterans, families and the community to honour service and sacrifice. Guided by faith, hard work and fairness with integrity, a commitment I'll bring to council. Deeply rooted in our region's history and mining spirit, I aim to restore transparency, address the recent financial difficulties, and protect our goldrush heritage. With my wife, Natalie, a school teacher, we are building a home on love and support. I value community and resilience. My health and wellness background taught me to listen and empower others, skills honed through volunteer work and RSL leadership. I'll advocate for infrastructure, healthcare, and fair mining regulations; empower residents via forums, tourism, and youth programs; and serve with honesty to ensure opportunity for all from Coolgardie's historic town to Kambalda's mining hubs.

Additional Information

I'm Tony, a proud Goldfields native running for Shire of Coolgardie Council to serve, advocate for, and empower our nearly 4,000 residents across our vast 30,400 km district. Born and raised in the Goldfields, I'm deeply connected to our regions rich history, mining industry, and resilient spirit. As the recently elected President of the Coolgardie RSL Sub-Branch, I lead with integrity, uniting veterans, families, and the community to honor service and sacrifice. Guided by faith, hard work, and fairness, I'm committed to ensuring Coolgardie thrives as a place of opportunity and pride.

My roots in Coolgardie run deep. Growing up here, I embraced the values of mateship, resilience, and community that define our shire. With my wife, Natalie, a dedicated schoolteacher, we've built a home grounded in love and support, reflecting my belief in the power of community standing together through challenges and celebrating our shared goldrush heritage.

Before a health scare altered my path, I worked in the health and wellness sector, empowering people globally to overcome obstacles. This experience taught me the value of listening and supporting others, a mission I continue through volunteer work and RSL leadership. As RSL President, I've organized community events, supported veterans, and fostered unity, skills I'll bring to the council to serve all residents. My involvement in the 2025 state election strengthened my conviction that governance must prioritize everyday Australians over elite interests or external agendas.

Coolgardie faces unique challenges: a vast district with remote communities, a mining-driven economy, and recent financial struggles, including a \$14.2 million deficit and mismanagement revealed by audits. I'm running to restore transparency, protect our goldrush heritage, and create opportunities for all from Coolgardie's historic town to Kambalda's mining hubs and remote pastoral areas.
