

## Pause for your PAWE

Bushfires are stressful and making last minute decisions can be deadly. By writing down a **Plan for Animal Welfare in Emergencies (PAWE)** and including it in your bushfire survival plan, you can help ensure you make the best possible decisions to protect the safety of your animals. Ensure all members of your household/workplace are familiar with your bushfire plan at the start of each bushfire season.

## Survival plan for your animals' welfare in an emergency

Evacuating animals	2.	Safer areas for animals
Which animals will we evacuate?		Which animals can't be evacuated?
How will we know when it's time for us to evacuate the animals? (high risk days, smell/see smoke, emergency alerts)		How will we keep them safe on our property during the fire?
How will we transport all of the animals being evacuated?	W	hat's our plan for after the fire?  How will we keep animals contained if fencing is destroyed, and provide food
Where can we take the animals? (e.g. agistment or boarding options)		and water (in the case of burnt paddocks, destroyed sheds, mains water unavailable, contaminated dams)
What are the possible evacuation routes? (consider the fire moving in different directions)		mergency contacts
